Innovative Support for Patients with SARS COV-2 Infections **Registry**

Help us understand how COVID-19 affects your health.

Join our online COVID-19 Survey Study at COVIDinspire.com

Participating study sites:

UW Medicine

UT Southwestern

What

This national collaboration seeks to conduct urgently-needed applied research in a large representative sample of the United States population to address the COVID-19 public health emergency.

Who

We are looking for adults, age 18 or older, who have experienced symptoms of COVID-19 and have been tested within the last 4 weeks.

Length

Your participation will take less than 30-minutes, once every three months, for 18-months.

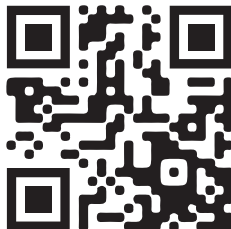

Location

The study is available by accessing a mobile app or website.

Compensation

You will be compensated for your participation in this study. Earn up to \$100.
